

CHRISTINA FALLAH

DESIGN

Christina Fallah Design has been an established entity in the world of prestigious interior design since inception in 1987. For me, thinking outside the box is a prerequisite. I work with you to realise your vision beyond expectations, combining unique insight, experience and attention to every detail, whilst building on a wealth of experience.

I blend materials and technology of the future with traditional skills, techniques and cultural styling, seamlessly.

Within the company my diverse projects encompass palaces, five star hotels, and luxury residences around the globe. I have also been invited into many successful collaborations with eminent architects and super yacht designers. The maxim, to interpret my clients' imaginings and through collaboration and my unique style, guide them to a completion above and beyond their wildest dreams.

Creative vision, experience, a dogged pursuit of excellence and, above all, attention to the finest detail are the hallmarks of my work. Testimonials and recent projects will bear this out, giving examples of how I create and manage teams of the finest talent, bespoke to your project.

Contact me now and let's imagine your space.
